## Council Presented Claim For Damaged Machinery

### SOFTBALL FRIDAY

There will be softball practice Friday evening at Stuart Scott school grounds for all girls wishing to play ball this season. Two teams from Newmarket and one from No. 23 B.T.C. will form a three-team league for the coming season. The two Newmarket teams will be known as the Orioles and Cardinals.

### TWO ROOMS DAMAGED IN PROSPECT AVE. FIRE

Damage estimated to be \$200 to \$300 was caused by fire at the home of Mr. and Mrs. Albert E. Starr, 44 Prospect St., Monday morning. The fire was said to have been started when heat from the stove started loose papers on a nearby table burning. The fire had spread to curtains and walls before the firemen arrived.

Two rooms were badly burned and considerable damage was done by water. The firemen were forced to tear open the walls to reach the flames inside the partitions. The firemen had a large audience as it was recess time at Alexander Muir school and the school pupils had only a short distance to go to reach the fire.

### PRESENT HONOR SCROLLS

Honor scrolls will be presented to the returned men of Newmarket at a reception in their honor on Monday, May 21, at the Citizen-Soldier club. Deputy-Reeve Arthur D. Evans told the Newmarket town council at a meeting on Monday evening.

The rehabilitation committee of the town is looking after the arrangements for the reception.

Newmarket town council will investigate a claim for damaged machinery presented by Dick Rupke at a meeting of council on Monday evening.

Mr. Rupke, who has a cold storage plant at the north end of town, told council that the water had been turned off and the machine had burned out. He thought the town meter-reader had either turned the water off or had left the door open and someone else had gone in and turned the water off.

"How would the meter reader get in to turn the water off?" asked Mayor Dr. L. W. Dales.

"The water runs continuously to cool the machinery," said Mr. Spillette. "The meter reader gets the key from the Arctic Lockers. Mr. Rupke's machinery burned out due to heat. Mr. Rupke assumes the meter reader turned the water off. The meter reader disclaims any knowledge of shutting it off but says he might have gone out and left the door open. He doesn't know."

"Did the meter reader tell you he might have left the door open?" asked Councillor Joseph Vale.

"Yes," replied Mr. Rupke. "The meter reader knew nothing of the damage," said Mr. Spillette. "He knows the necessity of keeping the water running."

"We have the same thing at the waterworks where the water has to run for the machinery there," said Deputy-Reeve A. D. Evans, chairman of the water and light committee. "There are four such places in Newmarket so the meter reader knows the necessity of keeping the water running."

"What makes you think it was the meter reader?" asked Councillor Vale.

"He was the only man in there," said Mr. Rupke. "Do you think he is responsible?" (Page 7, Col. 4)

## Boys Band Receives Town Grant Of \$600 At Council Meeting

A resolution, giving a grant of \$50 to the Hospital For Sick Children, Toronto, \$25 to the hardball club and \$600 to the Boys' Band, was passed.

"Was \$600 set up for the band?" Councillor Frank Bowser queried. "No," replied Councillor J. L. Spillette. "You will recall that the grant was cut from \$600 to \$300 last year and \$300 was budgeted for this year. But there are more boys and they are doing fine work."

"We budgeted for \$600 last year," said Reeve F. A. Lundy, "but as the band functioned only half a year, they received only half the grant. I asked that the same be done this year. If they had done that we'd have had the \$600."

"I am opposed to granting town funds to the Hospital for Sick Children in Toronto," said Councillor Joseph Vale.

"I'm ashamed of you after all the service the Lions club and other organizations in this town has had from them for the past ten years," said Mayor Dr. L. W. Dales.

J. O. Little came into the council meeting on his way home from band practice and was told of the grant.

"I appreciate the action of council," said Mr. Little. "I knew it wasn't necessary to come to council to ask for a grant. After hearing the mayor and our worthy reeve and wardens speaking at the concert, I thought our band was in good hands as far as finances were concerned."

"We have 28 promising boys in Newmarket, 23 or 24 above average and ten outstanding boys whom the town of Newmarket will some day be proud of."

"We have an engagement for the C.C.F. for Friday evening. On Sunday evening at 8.30 the boys will present a concert in the town hall. On May 31, the boys have another engagement."

"Has this band just been organized in the past year?" asked Councillor A. V. Higginson. "I think they have made a mighty good showing."

"It was first organized in November," said Mr. Little.

### L-Cpl. R. W. Blencowe At Rest In Germany

Mr. and Mrs. Wm. Blencowe, Newmarket, recently received a letter from the chaplain of the Queen's Own Rifles, the regiment in which their son, L-Cpl. Robert William Blencowe, was serving at the time of his death. The letter tells of the action in which Cpl. Blencowe was killed. Excerpts from the letter follow:

"Bob was killed after we crossed the Rhine River and started to take out the strong German position of Emmerich and Hoch Elton. A mortar bomb landed near him and killed him instantly. We felt very badly about it as his comrades felt his loss keenly. You will at least have the satisfaction of knowing that your son helped break the strong German position and allowed us to break right through and free northern Holland."

"With some of his friends attending, I buried Bob in our temporary Canadian cemetery in Vrsell, Germany. I hope that you will feel the way that we do who survive. Bob and his comrades have given their lives to clear this world of history's greatest gangsters. After visiting the occupied countries, we firmly believe this. We shall not, with God's help, repeat our mistakes of the pre-war years."

The letter is signed by A. J. Mowatt, chaplain of the Queen's Own Rangers.

The town clerk was asked to write the garbage collectors, asking they be more careful about garbage being spilled on the street from their trucks.

Councillor Frank Bowser was praised for his suggestion that the digger in use at the water works be used at the town dump also. Councillor A. V. Higginson reported that the posts had been put in as requested.

Mayor Dr. L. W. Dales suggested to Councillor A. V. Higginson, chairman of the property committee, that the matter of a bandstand be looked into and also suggested that serious consideration be given to the matter of a new town hall.

A suggestion was made by Mayor Dales that a notice be put in the paper, advising returned men to get full information from the department of veterans' affairs before investing their gratuities.

## High School Board Ups Teacher Pay Maximum

Newmarket high school board, on the recommendation of the management committee, raised the maximum salaries of the Newmarket high school teachers at a board meeting held Monday night in the office of the secretary.

The maximum salaries were set at: principal, \$4,000, male teachers, \$3,000, female teachers, \$2,700, and minimum for beginners from Ontario College of Education, \$1,800.

"Our salary estimates are well on an average with other schools, with the exception of maximums," said W. J. Patterson. "I think this adjustment will bring our standards up to average on maximums too."

The change becomes effective in 1945-46 and will effect only one teacher that year and two the following.

In increasing the minimum salary for beginners from O.C.E., the board felt it was encouraging application from better teachers.

In a motion from A. N. Belugin, seconded by W. J. Geer, the board asked R. D. Brown, public school board representative on the high school board, to invite the public school board to a joint meeting with the high school board for the purpose of discussing sending a recommendation to the Royal Commission on Education regarding the difficulty pupils have in making the change from public to high school. The board also asked Principal W. J. Lockhart to invite public school Principal H. A. Jackson and the staffs of the high and public schools to meet prior to the meeting of the two boards for a discussion on the same subject.

At the request of Mr. Lockhart, the board agreed to arrange for the renting of a 30 by 40 foot garden plot close to the high school for use in connection with the agricultural department.

An advance payment of \$11,000 of the total \$28,000 department of education grant for maintenance was received by the board. Last year's grant from the department of education was \$4,200.

Principal H. A. Jackson and Vice-Principal Evelyn Denne presented reports of the Ontario Educational Association convention early in April at a meeting of the public school board Friday. The reports will be published at a later date. The board spent most of its time in committee discussing pay schedules for teachers for the coming year, and the reports of the principals.

Vice-Principal Fred L. Hall told how he and Mr. Jackson had made a jig-saw from an old sewing machine for manual training classes. The board commended their resourcefulness.

Mr. Jackson urged the board to consider placing a music and art teacher in King George school and the board promised consideration.

## EIGHTH LOAN OVER THE TOP IN NEWMARKET

Newmarket went over the top in the Eighth Victory Loan campaign by \$57,000, according to latest victory loan office figures. Newmarket's objective was \$360,000 and the total so far is \$417,050.

The York County north district as a whole went over its \$2,500,000 objective by at least \$500,000. H. L. Trapp, victory loan organizer, said today.

Although loan figures are still incomplete, total for East Gwillimbury was \$237,550 and Whitchurch \$165,750. East Gwillimbury objective was \$175,000 and Whitchurch objective was \$165,000.

The victory loan headquarters are closing up their books for this campaign today and final totals are still being made up. However, loan officials expressed considerable gratification at the showing of the district.

The loan campaign started slowly and was hampered throughout by bad weather. The excitement attendant V-E Day was another obstacle in the way of the salesmen.

## CHRISTIAN CHURCH HAS FESTIVAL OF MUSIC

The Christian church, Newmarket, was the scene of a very enjoyable festival of music on Tuesday evening when Elsie Babjak, violinist, and Carl Kaye, cellist, of Toronto were guest artists. The program was under the direction of Mrs. J. Eugene Cane and was sponsored by the junior choir of the Christian church.

Apart from the visiting artists, others contributing to the program, all of whom were local talent, were: the junior choir of the Christian church, the double trio which works in conjunction with the junior choir and is made up of Muriel Broughton, Joan Widdifield, Jean Stanley, Mary Epworth, Dorothy Broughton and Dorothy Bennett; piano solo, Carol Boag; vocal solo, Marion Gibson; piano duet, Joan Curtis and Eric Weddel; vocal solo, Allen Perks; piano solo, Joan Gibson; vocal duet, Mary Climpson and Marlene Martin; vocal solo with junior choir assisting, Donald Brice.

Each item on the program was deeply appreciated by an audience that filled the church. **CANADA, A NATION**

Generally speaking, the weekly press reports of V-E day showed the same note of restraint. The news was presented without the benefit of screamers and trick headlines. There was no red ink. The weekly press reflected the attitude of its readers, one of sober thanksgiving. There was recognition that while the war in Europe was done, there is still a long way to go before peace is assured.

This almost quiet acceptance of the news of Victory in Europe augurs well for Canada. Canadians have grown in stature as world citizens in these recent years. As Canada has become an adult nation, ready to do its full share in securing peace and to help lead the way if necessary, so has its people become newly aware of the great responsibilities they must share with the rest of the world.

It would be easy in this sparsely settled country with its vast distances and geographical divisions for its citizens to become content to cultivate only their own plots and ignore the rest of the world. The ties of tradition and loyalty to England have led Canadians to do battle beside Great Britain in wars that have not directly concerned them, and in causes which in retrospect, many have denounced. But Canadians then did not question the cause. The motherland needed them and they went.

It was less so in the last war and not at all in 1939 when Canada declared war on Germany to protect herself. The years since then have added to our awareness of Canada as a nation, a separate and distinct entity. Since 1939, Canada as a nation, has shrugged off the last vestiges of a "colonialism." Canadians are justly proud of the traditions and history which they have inherited from Great Britain but with this pride, there is something more, the realization that we as Canadians have a magnificent heritage in Canada, and that Canada has a distinguished place in the community of nations.

**VOTE AT 18**

It was suggested some months ago in the course of a political debate that the voting age should be lowered to 18 years. It was argued that if a youth is old enough to offer his life for his country, then he is surely old enough to have some say about the management of his country.

Apparently on the assumption that such a proposal would have considerable appeal for those in the age group between 18 and 21, the proposal was embodied in a political platform. However, no one seems to have consulted those who would profit by it as to whether such a proposal would be to their liking. Consequently, the results of a poll taken for the Canadian Youth Commission recently are interesting.

The poll was taken in the age group of 15 to 24 years. The question was asked: "It has been suggested that voting requirements be changed to allow persons 18, 19, and 20 years old to vote in elections. Would you approve or disapprove if this were done?"

The results of the poll as reported by the Canadian Youth Commission were, among civilian youth, 30 percent approved; 53 percent disapproved; 11 percent undecided. Approval was lowest in Ontario with 30 percent, rising in the Maritimes to 34 percent, and highest in Quebec, the Prairies, and British Columbia, with 40 percent. Disapproval was slightly higher, says the commission report, among youth over 20 years with 56 percent as compared with 51 percent among the teen-agers. Young men were more in favor of the idea, 40 percent, than young women, 32 percent.

The commission report notes that disapproval rose with higher education. Public school pupils disapproved to the extent of 44 percent, and high school pupils disapproved to the extent of 56 percent, while college students disapproved to the extent of 60 percent. In lower income brackets, 50 percent disapproved, middle income, 55 percent disapproved and in the upper brackets, 60 percent disapproved.

Among the young men and women in the

forces at home and overseas, the response to the same question was 35 percent approved, and 53 percent disapproved with those under 20 years registering slightly higher approval.

**In Passing**

It is against the law to park a car in front of a theatre entrance when the theatre is open. If there is a fire or panic of any sort within the theatre, any obstruction at an entrance or exit is likely to cause considerable injury, even death. Yet motorists persist in disobeying the law and the dictates of common sense and with an apparent disregard of the risk of injury to others, continue to park their cars in front of the theatre.

This may come as a surprise to those citizens of Ontario who are so unfortunate as to not live in the Queen City but according to a news broadcaster on the radio, Sunday, June 4, is the day that "the citizens of Toronto" will elect a new provincial government. We've heard rumors of Bay St. domination in politics but we hadn't realized it had gone so far.

Incidentally, the same announcer referred to the coming political campaigns as that time when the politicians will try to sell their "peculiar ideas" to the people. That is rather a wholesale indictment of the platforms of the three major parties. Let us hope that it was all an unfortunate error on the part of the announcer.

Regrettable as the rioting in Halifax was, not all of those reading the news were critical. One reaction, common to those who had been in Halifax during the war period or who had relatives in service stationed there, was that the Halifaxians deserved what they got. Following this observation would come stories of discrimination against servicemen, unfair rent practices, and a host of other forms of mistreatment of servicemen by that city.

Another reaction, more general, was a satisfaction akin to that which is felt in the bleachers when one faction in the audience rushes to battle the other and a donnybrook follows. Far away from the scene, newspaper readers followed the reports and looked at the pictures with thankfulness that it didn't happen to them and some regret they hadn't been there to see it. The rioting was a disgrace to all Canada but human nature being what it is, there are few who could be sincerely critical.

The prompt arrival of the Newmarket fire brigade at the fire on Prospect Ave. Monday prevented the total destruction of the building. The incident serves as a reminder of how necessary such services as the fire brigade are.

**What Others Think**  
INTO CHARACTER

(The Northern News, Kirkland Lake)

It is characteristic of the curious medieval quality of the German mind, which has found expression even in the 20th century in a fanatic racialism and in an acceptance of despotism, that the Nazis have attached to the guerrilla organizations formed to make impossible any co-operation between the Allies and the German people the name "Werewolves."

The werewolves, according to the tradition of the Middle Ages, were human beings who had the power to transform themselves into wolves and who, says the encyclopedia, had during their wolfhood "a most cannibal appetite for human flesh."

It is a brutal and brutalizing conception states E. R. Mackay, editorial writer for the Sault Daily Star. Yet this is the name which the apostles of German Kultur have chosen to give to their agents in an underground campaign which it is claimed will "make collaboration with the Allies impossible but which can only postpone the day when hope can be restored to the German people."

The "Werewolves," says the Nazi radio announcement, vow to risk death "daily and joyfully" in a suicidal campaign of death against every Allied soldier without regard to "the childish rules of so-called decent bourgeois warfare."

If this were a mere counsel of desperation it would be bad enough. But it is something worse than that. It is a natural development of the German habit of mind which caused Treitschke, German historian and professor, to declare that "it is ridiculous for a state which is in competition with other states to start by taking the catechism in its hand," which in the last war caused the German high command to order that Allied ships be sunk without trace—spurious versinkt; which in the present war caused the Germans to carry out terroristic air assaults on Rotterdam, Warsaw, Belgrade and other cities, to establish the Lublin gas chambers.

It is a further evidence of the degeneration into brutality which makes the problem of how to deal with the Germans such a difficult one.

**Lest We Forget**

Under this heading, it is proposed to discuss the problems facing the returning serviceman and how best they may be solved through the help of those at home. It is hoped that by such public discussion, public interest will be kept alive to the needs of the veterans of this war. Below is the first of the series.

Now that the war with our enemy in Europe is won, we will soon have our boys back with us again. A number of them will not be the same. In fact, all who served through that long period of war will not think or act the same as when they left us. Our first duty is to try to understand them.

We must not think that they are just boys because they are not. They are hard fighting men, trained to meet anything. I think our first duty is to try to help them forget what they went through. We can do this by not asking them questions about the war and by keeping their attention on other things such as sports, dance and other amusements. If we do our part, they will adjust themselves very soon. We must also make them understand that we are really going to do something to repay them for

**I'LL PITCH, YOU CATCH**

By ORVILLE GANTON

A few weeks ago, I promised to interview some of our reputable sportsmen for suggestions and opinions on how to boost local sport. With baseball weather in the offing, I dropped in on Basil McFale who has long been associated with hardball. Incidentally, I found Basil tossing a rag ball to a beautiful lay terrier. He began to beam when I mentioned ball so I bluntly popped the question, "What's wrong with hardball the last number of years?"

"Nothing wrong with hardball, best game in the world," he maintained, "I see some hustling young players in town, too, who would go places if given proper coaching and encouragement."

"What about softball?" I enquired cautiously, getting ready to duck.

The old veteran hardballer threw another loop to the terrier and drawled proudly, "Make good outfielder that pup."

Then eyeing me a little disdainfully, I thought, he continued, "Softball you say; that's a girl's game; fine game too for girls and older men."

"Then hardball just needs a little organizing," I suggested.

"That's right," he assented, "but we must organize the whole county, as well as the town; with cheap motor transportation, silo-leagues should boom everywhere—say there's a smart pup; play anywhere—make good utility man; watch him gobble up this grounder."

I agreed the pup was sure fire big league material, then hurried along to put our baseball I.Q. on Del Gibney, local softball impresario.

Del thought we had the essential facilities for a smart girls' softball league, if it received the necessary publicity, organizing and support. If the girls from the high and public schools, working-girls and housewives, too, would turn out, we were assured of a good league, he said.

I think everyone is of the same opinion. Often the big-name players have humble starts.

Our neighboring village of Stouffville, which one of its whimsical wags described as "a hundred yards wide and a half mile long," brought out Earl Cook, who eventually made the major leagues with the Cincinnati Reds.

I coached a juvenile lacrosse team in Oshawa a number of years ago. Lacrosse was on the wane then; the team was poorly supported. In order to keep the kids from folding up, a prominent doctor generously provided all transportation expenses. We arrived in Toronto for a group game one player short. Someone pointed out a young stripling of a kid, 13 or 14 years old, who had hitch-hiked up to see the game. They suggested he might fill the gap.

I stripped the kid and sent him out on the home. He started in playing a bang-up game, scoring two goals in jig time. At half time he sat on the bench beside me eating oranges, apparently quite pleased with himself. I patted him on the shoulder and said, "Say, you're some lacrosse player for a kid. We might be able to use you again some time. What's your name?"

Grimacing and blushing profusely, the kid mumbled shyly, "Dit Clapper."

**THE COMMON ROUND**  
By ISABEL INGLIS COLVILLE

**V-E DAY**

Grand, beautiful, awe-inspiring, sorrowful, self-deflating, which of these was V-E day? I suppose it was a little bit of all of them woven into a pattern—a tapestry of history that will hang on memory's wall forever and be enclosed in a fiery frame on history's wall to warn future generations to stop, look and listen!

The morning we got the first inkling of great tidings to come, I was writing with the radio going full blast beside me. I shall look at what I wrote—if it ever makes its appearance—with fear and trembling, for all I could think of was to say, over and over, "Thank God!" and "The Lord is my light and my salvation."

Isn't it a wonderful and a beautiful thing that in time of great joy and great deliverance we turn first to our Maker? Afterwards we think of the leaders who have led us to Victory, of the men and women, dead and living, who made the victory possible, but our first thought goes to the God who has been our help in ages past, and who will be our hope in the years to come.

And what a setting Nature gave for our rejoicing—the sky seemed never so blue; the grass took on a richer green and the mist of pale lilac and gold and green that was the trees, seemed to shimmer in the light of the laughing sunbeams that played hide and seek with flags and bunting.

And it seemed to me, in that moment of glorious relief when we heard that Germany had surrendered, that all around us, just beyond the veil, the deathless army, the "valiant hearts who to their glory came, through dust of conflict and through battle's

flame" were close to the Canada they loved so well, and for which they had sacrificed all they were and all they hoped to be.

Perhaps to many of us at home our second thought on V-E day was that we were not worthy to rejoice. Looking back, there was so much that we might have done; there were so many comforts—even luxuries—that we clung to as our right when all Europe lay suffering under the Nazi heel; there were little acts of love which we might have performed for the anxious and sad at home; individually we might have written more and sent more to the boys over there.

Why does hindsight whip our consciences so much more than foresight? It is a strange commentary on human nature that the day which to the majority of Canadians was one of thanksgiving and prayer should degenerate in a few instances into the ravages one associates with war. One felt, listening to Archbishop McGuigan, that prayers for the right use of Victory and thankfulness for our escape from a dreadful fate, should mingle with and temper all our rejoicing. And anyone who listened to our leaders knew that first to God and then to our hosts, they gave the glory.

V-E day is a challenge. We face the dragon of Japan. Before the war Japan was a dainty picture in my national picture gallery, of dainty women in glowing silk kimonos, like pictures on a satin fan I have; of tiny landscaped gardens and pretty children.

How different the reality. Cruel, relentless—and mighty—she faces the west and we have to face up to our responsibilities in winning the war against her.

V-E day was a great day, but it was made up of small things—memories, incidents, a thousand things that will live in us.

As I watched the parade and looked first at the children, then at the young men and women—the children of yesterday—one felt, deep in one's heart, that the conference in San Francisco MUST not fail, that the flag-waving little ones of today must not be the marching boys and girls of tomorrow.

The delegates at San Francisco have what seem like insuperable barriers of race and pride and prejudice to surmount, but—"more things are wrought by prayer than this world dreams of"—and we can all pray and so make V-E day just V-day in all its entirety!

**Sharon Juniors Practice For Judging Contests**

The Sharon Junior Farmers' club held their monthly meeting on May 3 with many new members present. Gordon Orr of Maple was the guest speaker. The June meeting will be held on June 7 in Sharon Hall. A very educational evening is being planned with Mr. Clarke of Toronto showing moving pictures on home beautification.

Many of the boys are preparing to compete in the York county judging competition this year. Coaching classes were held last week at the farms of Sheldon Walker and Charles Haines with many interested young junior farmers present. Any young farmer interested is asked to come to the next class at the farm of Earl Walton on Friday evening, May 18.

Morley Cook is organizing a ball team which will play at the York county annual picnic at Musselman's Lake on June 8. Some good prospects are coming out to the practices. A number of the boys are making up a team for the tug-of-war contest on the same occasion.

# Gnr. J. T. Raymond Tells Of Front Line Action

Writing a letter from the front line is difficult even under most happy circumstances but in the letter of thanks for cigarettes to the Newmarket Veterans' Soldiers' Comforts fund, the readers profit for the writer, Gnr. J. T. Raymond, describes a bit of overhead action as it happened in front of him.

"As I write this letter," he says "I can look up and see four of our planes heading for the front. Following them with my eyes, I see them circle slowly about two or three times and then follow each other down in a sharp dive. When they reach the bottom of the dive, three small objects can be seen to detach themselves from the planes and go hurtling earthwards.

"The planes zoom speedily upwards and circle slowly again. A great geyser of earth can be seen to heave upwards. A dull boom is heard and then three or four smoke plumes climb into the air. The planes, still circling, begin to dive again. Halfway down, a thin streak of smoke can be seen following the planes down. As they pull out of the second dive, the pop-pop of their machine guns can be heard. Then black puffs of smoke appear in the sky. That's Jerry's ack-ack trying to get the planes. He very rarely succeeds.

"This is actually happening as I write. As those planes go back to their base, four more move directly overhead. They will carry on. When the bombs hit the earth, we can feel it shake slightly. Incidentally, as I write this letter, I am sitting in a 'slightly used' shell crater. I am using the lip or edge of it as a writing desk."

The little lad looking so interested in it all is John Douglas Yorke, son of Mr. and Mrs. Alvin Yorke, Sharon. He was a year old on March 28. His daddy is stationed in Brantford. Photo by

## DOWN THE CENTRE

Softball got underway this week in the Bradford district with a six-club circuit functioning. Teams entered include Scotch Settlement, Fennell's, Mount Pleasant, Bond Head, Newton Robinson and Bradford. It would appear the teams are fairly well balanced and with a combination of veterans and youths, the fans of the district should be in for some hot competition.

The league shows considerable enterprise in getting started this year. The lads coming back from overseas are going to find it dull but at least they'll have games to see and many of them will participate before the year is out where there is organized sports effort. There seems no particular reason except, possibly, transportation problems, why the Lake Simcoe softball league cannot operate.

There is no real reason the Aurora town league can't get going. The York-Simcoe league is bound to be revived as one of the most natural and attractive softball set-ups possible, but Aurora and Newmarket teams will find themselves at a disadvantage. Barrie will be all ready to step in since their town league has continued to operate during war years. Bradford will be able to stage a comeback with the talent from the six-club league available. Richmond Hill will also be able to get underway since most of the boys at home have played either district or Toronto midgetball. It behooves those who are interested in softball in Aurora and Newmarket to prepare for the future. The York-Simcoe league should get underway for certain next year and there is no real reason, come fall, why a play-off series between north and south for the Patterson trophy couldn't come to pass.

Charlie Ryan and the lads from the Hill are apparently not going to throw in their lot with the Unionville A.C. team sponsored by Len McMullen. Once again there is a Roselawn entry (1944 Hill moniker) in the Wantles Park senior B league and the silvery-thatched Ryan is again in charge of proceedings. We presume the Hill boys will stick with Charlie as they did last year and that means Teddy Bennett, John Mabley, Huck Young, Bill Bowen, Art Crean and all the rest. Phil Forsdike, whose name lacks a familiar ring, is coach of the team.

We notice that Nels Findlay, former Hill softball star, has returned to his native Thornhill to reside and is now operating the village hostelry, one of the oldest in the district. Ted Gapp, one of the lacrosse stalwarts of the district, has turned to softball this season and will be the mentor of the Bradford team.

Marj McCannan has decided to stick with the "big store" team in the Sunnyside senior girls' circuit and "Pinkey" Clarke, former Toronto amateur ball star who is handling the team, is all smiles. "Marj is one of the heaviest hitters and best all-round players in the league. We are sure glad to have her back with us," Pinkey told the writer last week. The Newmarket girl is starting her third season in the bigtime and will doubtless be in for a big year. Incidentally, we had a preview of the team's new uniforms (two sets no less in different ensembles) and they are really something. It might pay those at Newmarket to catch a glimpse of the Sunnyside gals by way of improving sartorial splendor, always one of the big features of girls' softball, aside from feminine charm and playing ability.

While we're with the femmes, turn your eyes eastward to Halifax (just prior to the V-E Day debacle) for some swimming news. It may surprise you to learn that two North York girls have been attracting attention in the navy swimming meets. We refer to Dot Dales, daughter of Mayor Lowell Dales and former all-round athlete at Newmarket high, and Mary Emmett of Snowball, who was prominent in all sports at Aurora high school. Dot was a member of the I.M.C. S. Cornwallis team which competed against Halifax navy nators. The Newmarket lassie finished third in the 50-metre free style for Wrens, which was negotiated in the fast time of 37 2-5 secs. She also was a member of the Cornwallis relay team. Mary was a member of the winning 120-yard free style relay team representing Halifax navy, the quartette requiring 1.17 to make the four laps.

Austy Baker, former ace forward of Markham junior and intermediate hockeyists, who enlisted with the R.C.A.F. following the 1942 season and subsequently was commissioned as a flying officer, has transferred from the R.C.A.F. to the navy and is now an officer on the east coast with the navy fleet air arm. He chose this rather than go on the reserve R.C.A.F. lists.

Frank Boucher, coach of New York Rangers and many times winner of the Lady Byng trophy in the N.H.L. besides being one of the greatest forwards of all time, was recently nominated as the Liberal candidate in the federal riding of Grenville but refused to go to the races. Red Dutton, acting president of the N.H.L., is likewise said to have declined a political nomination in one of the Calgary ridings. Being interested in sports or a widely known sports career, seems to be coming more and more one of the requisites for present day politicians in many ridings.

Lieut. Bert Life, track and field basketball coach at No. 23 B.T.C., has turned his hand to soccer this season and if Bert is as successful as a player as he was as a coach at the other two sports, he will do all right for Syd Bowman's team. The Newmarket eleven got off to a fine start on their own grounds last week by tying Jimmy Edmond's Mimico Beach club 1-1. It was Lieut. Life who headed the roundball past the Mimico goalie. From early season reports it would appear the Newmarket team is the strongest in some years. We can visualize "The Flicker" counting his chickens and murmuring, "If I can just hold them together over the season." Major A. H. Adams is secretary of the club this season.

Pipe dream of the season came from the pen of George "Soup" Campbell of Oshawa as he envisioned Barrie Colts in Junior A hockey next winter. Barrie hockey moguls appear to know nothing about it or if they do, they aren't saying anything. It will all depend in the first instance if the artificial piping as approved by the Barrie ratepayers is installed before winter. Artificial ice is the first requisite for A rating. From all we can learn, unless Barrie officials move very fast and have luck in securing the needed equipment, it seems a bit doubtful if artificial ice really will be on hand up north by December.

The other big requisite is players and Barrie would need considerable strengthening to perform in higher company, assuming they could hold all their present team from the pros and A clubs, which doesn't seem likely. That would mean it would be necessary to import extensively which is seldom a good policy in a centre of less than 10,000 where the homebrew angle supports quite a bit of ready support. Then, too, getting off to a winning start is a big thing in the early days at least of artificial ice. Barrie could probably produce a Junior B winner next season but not a Junior A championship.

Ben Weisk, who will be re-

son. We don't suppose George will use it very much but he has a weather eye to the future and will probably be back in the racing game. Mr. and Mrs. Cosford did not have much luck in the owner-trainer combination a few years ago but still have some fair horseflesh on hand from which may come a future winner. We would like to see their person. (Continued on Page 11)

# NOW THERE'S A FUTURE IN FARMING

### Under Liberal Government, Farm Incomes Rose Steadily

ONE out of every three men working in Canada is on the farm. Agriculture is the nation's most important industry. Since 1935, your Liberal Government has kept farming at the top of its list for action. Look at the panel (left).

Although 23% fewer men have been available for farm work, production has increased more than 40%—a splendid record of achievement for victory!

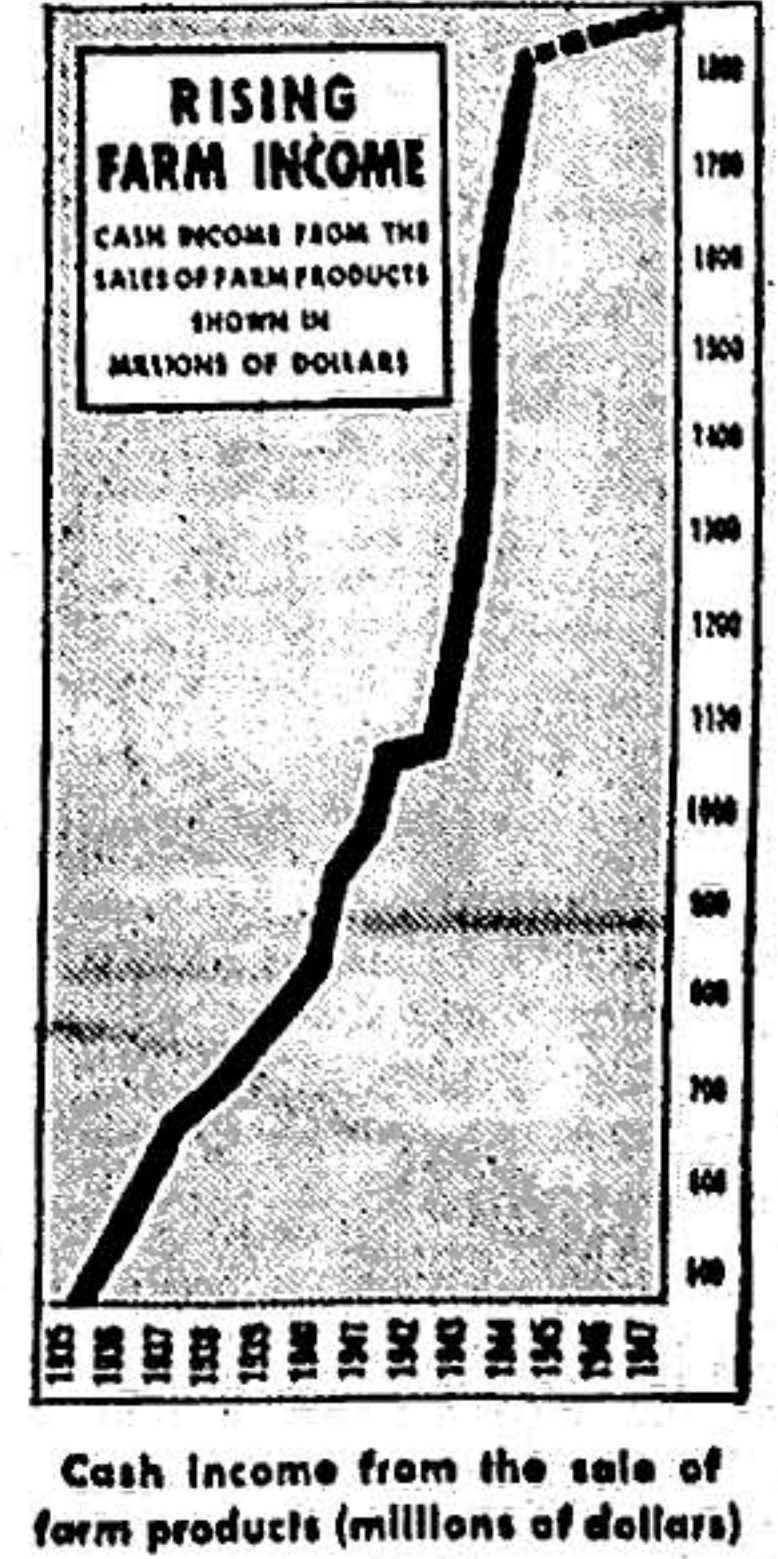

Even before the war, by securing foreign markets, taking off surpluses and stimulating home consumption, your Liberal Government assisted in raising total farm income by 45%.

During the war, the farmer for the first time was put in the sound position of knowing exactly how he stood financially. He was protected against increases in his costs of production and guaranteed a market at fixed prices for a specified volume of produce. In 1939 farm income was \$772,000,000; in 1944 it was \$1,817,000,000, an increase of over a billion!

After the war, your Liberal Government has arranged to keep farm incomes up by floor prices on farm and fish products, and by foreign trade . . . to improve farm living conditions by Family Allowances, National Housing Plan, Farm Improvement Loans Act, and other social measures . . . and to secure agriculture's future by conservation of soil and other natural resources together with far-sighted projects for irrigation, road and other improvements as soon as manpower and materials are available.

When you vote Liberal you act for your own and your family's continued welfare.

- ### Liberal Action for Agriculture
- Here are some of the practical steps which your Liberal government has taken for your benefit:
- 1 Guarantees of minimum prices for farm products.
  - 2 Trade agreements with 20 countries.
  - 3 Debt cancellation took \$225 millions debt off farmers' shoulders.
  - 4 Took import duty and war exchange tax off farm equipment.
  - 5 Saved apple industry by special marketing agreements.
  - 6 Premiums paid on high grade cheese and grade A and B1 hogs.
  - 7 Wheat Acreage Reduction and Prairie Farm Income payments made in 1941 to tide farmers over until market for wheat found.
  - 8 Export contracts, operative until 1947, set as floor prices under farm products.
  - 9 The above, with the Export Credits Insurance Act, will maintain farm incomes throughout post-war period.
  - 10 Appointed (August 1944) Agricultural Prices Support Board to guarantee for post-war security to farmers' incomes.
  - 11 To enable farmers to improve their working and living conditions, your Liberal Government has provided for intermediate and short term credits by amending the Bank Act and passing the Farm Improvement Loans Act, and further, has arranged that those wishing to build new homes or repair, extend or renovate their present homes can borrow the money under the National Housing Act.
  - 12 Inaugurated annual farm production programmes through co-operation between the Department of Agriculture and farmers' organizations in every part of Canada.

# HURRAY for TODAY!

V-DAY means not a thing to this husky young rascal, unless it is his Daddy's coming home. This little citizen is happy any day so long as he's well fed and feeling fine.

Yet he — above us all — is the one to shout for joy today.

Is it not for him — and for millions of bright faces of his generation — that men have been willing to suffer and to lay aside their freedom — bit by bit — so that one day they might have it complete, secure?

Even so — the fruits of Victory are not alone for those too young to know the privations of war . . . not alone for posterity.

Here and now, men and women of our generation — scared and wearied by long, grinding years of war — shall know the blessings of a new-born day.

This new day is for the common man . . . for greater social justice, for broader opportunity to enjoy a richer, fuller life.

No thinking citizen here in Canada, or in any land touched by war, would believe for a moment that our problems are past.

The prospect ahead is no easy one . . . Yet it cannot daunt the hardy stock of Canada — the men and women who carved this nation out of a wilderness, who through the years have fought the good fight as each emergency arose — down to the last Victory Loan . . . down to the last blood donation.

No, the prospect is hard, but a new spirit is abroad. We Canadians, like all our Allies who have fought this fight with us, have been chastened by the ordeal, and we are determined — by the effort of the individual citizen . . . by the effort of the community — to bring a better, stronger, healthier world out of the raging storm through which we have passed.

This is a day for cheering not simply for victory over dictatorship, but for the assurance we have of the dawn of a better day.

This message is published as an expression of faith in the future of Canada by the Bank of Montreal, which has been working with Canadians in all walks of life since 1817.

## In Memoriam

Monkman—In loving memory of our dear mother and dad, Mrs. Elizabeth Monkman, who passed away May 18, 1936, and Mr. Thomas Monkman, who passed away Sept. 24, 1938.

They will be done seems hard to say. When those we love have passed away.

Soon they perhaps will understand. When we meet again in that better land.

Lovingly remembered by their family.

Pollard—In proud and loving memory of Ralph H. Pollard, son of Mr. and Mrs. Chas. Pollard of Belhaven, who gave his life for his country May 12, 1944, in Italy. Somewhere in Italy, in a soldier's grave,

Lies our dear son among the brave. He never shunned his country's call.

But gladly gave his life, his all. He died the helpless to defend. A faithful soldier's noble end.

Ever remembered by father, mother and brother and family.

Widdifield—In loving memory of our dear son, Ivan, who went to be with Jesus, May 18, 1943, aged 3 years, 5 months.

The memory of his dear, wee ways. Will linger with us all our days. Sweetest flower, too sweet to stay.

God took him home to show us the way. Always remembered by Mummy and Daddy, sisters and brother.

**SOLDIER DESCRIBES GERMAN SURRENDER**

A letter from their son, Pte. V. C. Williams, dated May 5, reached Mr. and Mrs. J. Williams, Newmarket, May 14, from overseas. Pte. Williams, a member of the Irish Regiment of Canada and veteran of Sicily and Italy, wrote of the way the news of V-E day was received among the troops in Holland. He writes: "This is the day that we have been waiting for for a long time. We have just finished a pretty fair show and the way the Germans surrendered, I thought it would be over soon as they came out in droves. "We just moved back ten miles for a rest when the news of the capitulation came through. The people of Holland have been very good to us and they have had a pretty rough time for the last four years. They are not wasting any time with the collaborators and it looks as if they will be able to get straightened around without our help."

## ELMHURST BEACH QUICK THINKING SAVES LAD FROM DROWNING

Mrs. Shirlo, who has already lost her husband overseas, had another near tragedy in her family on V-E day when her five-and-a-half year old son narrowly escaped drowning. He had gotten into a small punt which became untied and started drifting out into the lake.

The little fellow climbed out of the boat in an attempt to stop it. Mr. Miller, the new owner of the late Jas. Clark, Sr., property, who saw the punt drifting and spotted the youngster with the aid of his field glasses, immediately rushed to his rescue with a motor boat. Mrs. Shirlo called a doctor, wrapped the wee boy in warm blankets and today he is none the worse for his experience.

### W.C.T.U. NEWS

By LEONORA STARR  
Press Secretary, Newmarket W.C.T.U.

A glance at the age-old struggle against alcoholism: "There is no new thing under the sun." This comment of the ancient preacher 1,000 years before Christ, regarding the changes of his day, is pertinent in any age when referring to the ever-existing struggle to save people from the far-reaching grasp of strong drink—at first from fermented, and the last 500 years from distilled liquors.

Alcohol condemned in sacred writings: Evidence of the realization of danger and harm are found in earliest sacred and secular writings. The shame that came upon Noah, Lot and Ahasuerus because they drank wine has been repeated again and again between these days and is being experienced today in 1945. The experiences of Nebel, Nebuchadnezzar and Belshazzar with strong drink are being retold today where the chief actors have modern names. Solomon warned against fermented juice ("which moves itself in the cup") because it deceives the drinker about his own condition ("whose is deceived thereby"); causes silly talk ("babblings"); quarrelling ("contention"); fighting ("wounds without cause"); and leads to undesirable associations because no other substance leads to and intensifies so many mental and physical diseases ("at the last it biteth like a serpent").

Ancient literature against alcohol: An ancient Egyptian tomb carries the inscription that "this young man's days were cut short because he drank wine." The long ago personal letter of a father to his son advises him to keep away from the drinking places along the streets for he is likely to fall down and there will be no one to pick him up.

The experience of Alexander the Great—strong to conquer the world but weak to control his appetite for wine—is being repeated in our own country. Shakespeare knew the cumulative effects of alcohol for in Othello he makes Cassio say, "O God, that men should put an enemy in their mouths to steal away their brains; that we should with joy, pleasure, revel and applause, transform ourselves into beasts! To be now a sensible man, by and by a fool, and presently a beast! O strange! Every inordinate cup is unblessed and the ingredient is a devil."

## THE PATHFINDER

### A GUIDE TO CAREERS

By H. J. RUSSELL, M.R.S.T.,  
PICKERING COLLEGE

#### ARTICLE FOUR

Imagine, if you can, a high school class meeting for the first time to take part in a discussion on vocational guidance. What matters do you think would come up for discussion? Let us get into action as a group and outline the discussion in question and answer form.

I am going to have you put down nine basic points that ought to be of interest to anyone who has an occupation in mind or who may some day want information about an occupation. Here is point number one, and I want you to try to suggest the remaining points.

1. Origin, history and development of the vocation or profession. Jack says we need to know something about ourselves, so here is point number two:

2. Personal qualifications needed for entering the vocation or profession.

And now Mary says we should choose the right course, so for number three we will write:

3. Scholastic training needed for engaging in the vocation or profession.

How about point four? Employment openings? All right, put down:

4. Complete analysis of all employment possibilities.

Now for point five. Arthur wants to know about earnings, so we can write:

5. Remuneration received.

Any ideas for the sixth point? Yes, Dick, promotion is important, so put down:

6. Chances for advancement.

Just three more points. How about number seven. Advantages? Very well, let us say:

7. Advantages and disadvantages of the occupation.

And number eight? Can men and women work at this? Yes, Verna, we can write:

8. Possibilities for both men and women engaging in the vocation or profession.

Now for the last point. Where can we get information? says Eric, so for number nine we can make this note:

9. Professional associations and publications.

I feel sure that if we study an occupation from these points of view we can construct a valuable guidance chart.

### CIGARETS AND GUM WELCOMED OVERSEAS

Cards of thanks for cigarettes and gum sent to Newmarket boys overseas by the Newmarket Veterans' Association Comforts fund came in profusion in a recent mail from overseas. Pte. C. H. Wright seems to sum up the thoughts of all receiving the parcels in his letter when he says: "Really, it was a great day when I received my package."

Pte. A. M. Ferguson writes that he thinks it "is swell of the Veterans to think of the boys over here and they all appreciate it." LAC L. R. Willis writes at greater length. "Words cannot express our gratitude to each member of the organization for the many comforts they have sent. 'The war is progressing very favorably and it may not be long before once again we will be enjoying the pleasures of life in a world of peace. It is to be hoped the San Francisco conference will achieve success in laying the foundations of peace for all time. We are extremely proud of the part our boys are playing in the battle of Europe.'"

J. L. Alderson writes that it won't be long until "our job here is done and we will be able to thank you personally," while LAC Harold Simmerson, on German soil, writes that the "people don't like us on their land." He is stationed at a summer resort in Germany.

"It won't be long before we can begin to think seriously of coming home," writes Harry Bolton in what he describes as a "double ration" of thanks for both gum and cigarettes.

Sgt. J. E. Morrow says that he expects "that everyone is hugging the radio these days in expectation of V-E Day the same as we are over here. It certainly can't be far off now. How good the Canadian soil is going to look when seeing it again!"

Pvt. Sgt. H. R. Nellis writes that he is sorry for the delay in writing thanks for cigarettes but that he has been "busy at work in the Hun Exterminator Co. Unlimited. As the R.A.F. would put it, the gum and cigarettes were much appreciated gifts and really 'hang on'."

Other cards of thanks were received by the Newmarket Veterans' Association Comforts fund from Pte. J. Atwell, Cpl. Alfred Ainsworth and Bill Everett.

It took 18 stamps to send a letter from China to Canada by air mail. The letter was sent from Francis Starr, son of Mr. and Mrs. Elmer Starr, R. R. 3, Newmarket, to his brother, Stuart. Francis Starr is a member of a Friends Ambulance Unit serving in China.

The stamps on the letter had denominations ranging from ten to 1,000 yen marked on them. The value of the postage in Canadian money was estimated to be \$12.00.

In his letter, Francis described a dinner to which he had been taken by a friend. There were eight in the party and the meal cost \$3,900 in Canadian money. Eight oranges cost them \$600.

## 'Thanks A Lot,' Writes Soldier To Veterans

"Your cigarettes were received two or three days ago and I must say a hearty 'thanks a lot,'" writes Pie. Kester Hugo to the Newmarket Veterans' Soldiers' Comforts Fund. "I must admit that I was absolutely out of Canadian cigarettes and have been using English ones but of course they are nothing like Canadian smokes."

"We are on the move so much these days that my mail has been gathering almost in stacks and I am owing many letters. I did a lot of writing while in England but since getting over here there seems to be so little time. I would like to tell you a lot but there is so little we can say. While in Ghent in Belgium, I saw Wes Niles but was unable to say hello to him. I saw the old Newmarket boy in England but have yet to see anyone from Newmarket over here."

"I was in Belgium for a while and then travelled through Holland into Germany. One of my thrills was crossing Hitler's own Rhine."

"Last night I was lucky enough to get a parcel from you with a box of chewing gum inside. It is very welcome here and almost impossible to obtain," writes Major T. M. Ewing to the Veterans' Soldiers' Comforts Fund. "I think your fund does very valuable work for the men over here. Everyone gets a lift from receiving mail and more especially, a parcel."

"There seems to be very little news that I can send. At present I am in Holland but hoping to get to Germany before I come home."

A card of thanks was also received from Pie. N. H. Lundy.

The Era and Express can be purchased in Newmarket at Spillettes, Bolton's, Bell's, Root's and Campbell's.

Mr. Albert Laws and a friend spent Sunday with Mr. and Mrs. T. Laws.

Mr. and Mrs. Harold Bray were supper guests last Sunday evening of Mr. and Mrs. Merton Rutledge.

There will be a meeting of the W.M.S. on Wednesday, May 23, at the manse, Keswick, at 2.30 p.m.

# At Last— Fair Play for the Farmer

"Canadian farmers have never had a fair return for their labour. They are forced to buy in a protected market at relatively high prices and to sell in a world market at generally low prices. What agriculture needs is not crutches to carry its disability; it needs to have the disability removed. This can only be accomplished by permanent measures and long range planning."

*John Bracken*

At last—a farmer fights for fair play for farmers! For more than twenty years John Bracken, the Farmer, was the undefeated leader of a Farmers' Party. To-day, as leader of a great, national, progressive party, he is determined that throughout the length and breadth of Canada there shall be a square deal for agriculture... fair play for the farmer... on a permanent basis!

Farmers have seldom had a fair share of the nation's income. Rarely do they receive a just reward for their endless labours. John Bracken means to stop, once and for all, the unfair discrimination against farmers, the unjust economic practices which make it impossible for farmers to obtain fair prices for the fruits of their labour.

"It is the responsibility of the nation," says the leader of the Progressive Conservative Party, "to see that this great inequity shall not be perpetuated... I know where I stand in the matter. Let me make that position clear. It is not fore-ordained that farmers shall work for less pay than anybody else; or have their children receive only one-quarter the chance of a secondary education or one-tenth of the chance of a university education that other children get; or see their wives forced into lives of toil, often 12 but sometimes 14 hours a day—Sundays and holidays included.... The trouble is that no one with the necessary authority has determined to correct the basic economic ills of Agriculture."

To-day, John Bracken, the Farmer, seeks the necessary authority to put into immediate operation the far-reaching

Progressive Conservative policies that will permanently ensure fair play for the farmer. Here are just some of the points in the Progressive Conservative plan for the definite, continuous and permanent protection of farmers against income collapse and wide extremes of income fluctuation:

The Farmer shall be guaranteed a proportionate share of the nation's income.

A permanent policy for forward contract prices shall be guaranteed to farmers—by law.

The prices guaranteed will be calculated by a non-political council, and will be based on the farmer's proportionate share of the national income. These prices will be announced before the production seasons begin.

This policy will increase present average farm income by not less than twenty per cent.

It takes a farmer to understand farmers' problems. Only a farmer knows the full economic injustice from which farmers suffer. To-day, John Bracken is fighting for fair play for every farmer. The leader of the Progressive Conservatives is determined to bring security and prosperity to farmers permanently. Join in the fight. Help him to win his life-long struggle to give Agriculture a place in Canada's prosperity, not for a day—but for all time to come.

A Farmer fights for you... He needs your help.

# Rural Scene AFTER THE WAR!

We're waiting for the green light. When telephone men and materials are back again, we'll resume our rural expansion program where we left off.

First job of all will be to supply service to families on our waiting list. Then will come such major projects as extending facilities into new areas; replacing "veteran" equipment; raising standards of service. Simply to relieve present crowding on rural lines will mean running more than 8,000 miles of wire from present pole lines. Then we'll need extensions to the pole lines themselves—some 2,500 miles of them—to reach additional communities. Wherever we find one family per half mile of main road wanting telephones, we plan to construct pole lines to serve them.

**It all means PEOPLE AT WORK**

... work which must be done. If telephone service is to keep pace with rural needs, it must service men, operators, office workers. To get it done, we'll need not only every day on military service, plus all those now working behind.

### WHITCHURCH TOWNSHIP Council Agrees To Try Weed Cutting Contest

After some opposition Deputy-Reeve Lorne Evans gained favor for his proposal to conduct a weed-cutting contest in Whitchurch township this summer, but it was only after council tied on the yeas and nays leaving the casting vote to Reeve George Leary, who expressing himself as not too favorable, decided to give the proposal a try and thus cast his vote in favor of the contest.

The resolution which the Deputy-Reeve submitted tells its own story:

"That the council of the township of Whitchurch offer the following prizes to farmers for cutting weeds in 1945 on the road allowance adjacent to his lands owned or rented by him. Each contestant shall fill out an application with the clerk on or before July 1.

"For the purpose of the contest three divisions shall be set up having to do with length of frontage, 40 to 80 rods frontage; 80 to 240 rods; over 240 rods.

"There will be five prizes in each division, first, \$25; second, \$20; third, \$15; fourth, \$10; and fifth prize, \$5."

That means there will be distributed in each division or size of frontage that farmers might come under a total of \$75 or \$225 in all.

Councillor Logan declared the township had neglected cutting weeds for years and it looked as though the council was "trying to get a lot of cheap labor. Let us try and rent a sprayer and get something done," he said. "I would favor spending \$500 in spraying, when Councillor Les Harper suggested to make it \$1,000. The deputy-reeve wanted it made clear that he favored spraying too, but where can we get a spraying outfit? He pointed out that if a reasonable response is made to the prize money there would be that many

### 'THUNDERHEAD'

Blazing with the excitement of life, the depth of love and the urge to adventure that is the west, Thunderhead—Son Of Flicka comes to the screen of the Strand theatre, Newmarket, on Monday, Tuesday, Wednesday and Thursday with Roddy McDowall heading a cast including Preston Foster and Rita Johnson. The picture, based on Mary O'Hara's best-seller, was filmed in brilliant technicolor.

less weeds to cut or to spray."

Councillor Harper said he supported the idea on the ground outlined by the deputy-reeve, but he was inclined to the belief that a small percentage would compete, but he seconded the resolution because he saw no harm in trying it out.

"I see in the idea where a fellow with a clean front or one easy to keep clean could easily win over one with a ditch line and rough frontage," said Ivan McLaughlin.

Councillors McLaughlin and Logan voted nay and Deputy-Reeve Evans and Councillor Harper voted yea, which tie was broken by Reeve George Leary, then everybody wished everyone every success. Certainly the more who enter the better the township roadsides will be.

### BELHAVEN

Court of revision was held in the community hall last Tuesday afternoon.

The Women's Institute held their May meeting at the home of the new president, Mrs. Erwin Winch. There was a good attendance. Fourteen ladies paid their fees. An interesting feature forming part of the program was listening to speeches over the radio from England, including the King's speech. A suitable prayer was offered. The Co-operative program was discussed.

The guest speaker was Mrs. Perry Winch. Her subject was Farm Forum. Donations were made to the Canadian National Institute for the Blind also to the Jam for Britain fund.

Mrs. Thomas Horner was at the meeting again after a long absence through a prolonged illness.

The June meeting of the Women's Institute will be held in the Community hall and is under the convensorship of Mrs. Connel Marritt, who is in charge of war work. Roll-call will be answered by saying something nice about the neighbor on your right. The hostesses are Mrs. E. Winch, Mrs. N. King and Mrs. E. Nelson.

Under an agreement of the Canadian Fisheries Department with the British Ministry of Food, a minimum of 15,000,000 pounds of frozen cod and pollock filets is to be supplied to the United Kingdom from 1945 production.

It's one thing to grouch about unsatisfactory results from the laying pens, and another thing to do something about it! You have only yourself to blame, if, having purchased good chicks, and raised them into vigorous pullets, you don't get results in comparison with the time, effort and expenso you have invested in them.

You can let your pullets know what you expect from them by feeding them for tried and proven results. Balance their grain ration with SHUR-GAIN BIG 50, the high-protein concentrate that encourages pullets to do their best for you.

SHUR-GAIN BIG 50 LAYING CONCENTRATE is made of valuable animal proteins, high-efficiency, body-building minerals and health-promoting vitamins. In short, SHUR-GAIN BIG 50 contains all the extras so often lacking in home grown grain, extras that make the difference between success and failure in your poultry pens.

Don't waste another day on unprofitable feeding methods. Get your supply here at your local SHUR-GAIN Feed Service Mill, for bigger and better poultry profits.

(Continued from Page 4)  
 verance and hard work rewarded.  
 John Stuart may not win the  
 King's Plate this year with his  
 entry, The Sheriff, but on the  
 early season trials his horse  
 appears to have a good chance  
 and is drawing some support.  
 But the horse in the Stuart tar-  
 tans that is really attracting  
 attention in the pre-meet work-  
 outs is a two-year-old, Bonnie  
 Liz, who is literally flying and is  
 picked as one of the leading  
 juveniles. Bonnie Liz has the  
 breeding to go places, being a  
 Bunty Lawless-Patterson off-  
 spring. With only a couple of  
 weeks to go, there are 42 horses  
 eligible to run in this year's  
 Plate. Originally 68 horses were  
 entered in 1943 with a \$10 entry  
 fee being paid. Then on May 1,  
 to keep them eligible, each entry  
 was taxed another \$25 and if they  
 go to the barrier the owners will  
 have to pay another \$100 each.  
 The total amount paid in is  
 added to the king's guineas and  
 the Jockey Club's purse to make  
 this race the wealthiest in Can-  
 adian racing circles.

If all the 42 should go to the  
 post it would be the biggest field  
 ever to run. However, what will  
 probably happen is this. Inaugu-  
 rated last season were trial  
 Plate races at a value of \$2,500  
 each. From these races the  
 owners can get a fair idea of the  
 chances their horses have and  
 act accordingly. But regardless  
 of what happens in these tests

There is nothing to stop the own-  
 ers going ahead and running their  
 horses in the Plate. Back in 1933  
 when King O'Connor captured the  
 guineas, 22 horses faced the  
 starter and all got away to a  
 good start too. We look for no  
 more than 15 of the present crop  
 to actually go to the post.  
 Uttermost, the leading winner  
 of the two-year-olds' last season  
 owned by Harry Hatch, appears  
 justly enough to be the favorite  
 for the big event. Mr. Hatch has  
 one or two others which will  
 make fine entries. Charlie Hem-  
 stead of Steele's Corners has two  
 good ones entered in Hemstead  
 and Hemfox. Mrs. Burt Hulise,  
 wife of the well-known Dixon  
 Pencil Co. official, has another  
 good one in Frivolous Kit. Hey-  
 dunette and Blaenor, owned by  
 R. S. McLaughlin, look fast.  
 Eddie Dewar's Dr. Bob, Sea-  
 gram's Pat Fuller and Harry  
 Carmichael's Pattergal, along  
 with The Sheriff, look like the  
 pick of the field. But, as so  
 frequently happens, an outsider  
 may come along and shatter all  
 the prophecies. This year, how-  
 ever, it would appear unlikely to  
 happen.

Fred Schelke has pulled into  
 Toronto with his good horse,  
 Shepperton, and the Gormley  
 resident is confident that his  
 chestnut flash can beat the best  
 in Canada including Bon Jour and  
 Tulachmore. Shepperton, he  
 says, has completely recovered  
 from his leg injury of last season  
 and is rarin' to go. It is to be  
 hoped suitable races can be found  
 and the heavy 140-pound impost  
 of last season found unnecessary.  
 Big Shep never saw a track as a  
 yearling and first came to the  
 fore as a two-year-old in trials  
 at Long Branch. He made his  
 start as a three-year-old, winning  
 \$10,135, but was not in the King's  
 Plate, won by Ten To Ace and  
 Aurora's Charlie Smith, because  
 of an injury. The next season  
 he won nine races for a total of  
 \$13,240 and stands second to  
 Tulachmore among the Canadian  
 bred of the present era for fi-  
 nancial returns with a total of  
 \$30,470 in three years.

Beau Of The West, \$49,730, Gay  
 Parisian, \$37,635, Joey, \$37,010,  
 and Bunty Lawless, \$35,290, are  
 the top four money takers of all  
 time among Canadian horses  
 and Bill McDonald's Tulachmore  
 will easily crash the charmed  
 circle this year and so should  
 Shepperton. It is doubtful if  
 they will equal the record of  
 Beau Of The West but they  
 should easily overtake the others.  
 The Woodbine is at hand and just  
 how good the Schelke entry is  
 this year will soon be known.

Congrats to three gents who  
 have come through trying expe-  
 riences. Bob Benville, ye olde  
 mariner and bicycle racer extra-  
 ordinary, Johnny Frew, former  
 puck-artist with No. 23 B.C.,  
 Newmarket, now on civvy street,  
 and Jimmy Emmons, outfielder of  
 the Aurora R.C.O.C. Depot nine,  
 are all daddies now. The first  
 two have been buying cigars for  
 the lads because of daughters  
 while James has been doing like-  
 wise because of a son.

The May meeting of Elm

 of Mrs. L. Tomlinson. After the  
 ode and collect, the members  
 repeated the Lord's prayer and  
 sang one verse of "Oh God, our  
 help in ages past."

The roll-call was answered  
 with what I'd like to do for my  
 W.I.

It was decided to send the fol-  
 lowing donations: Canadian Na-  
 tional Institute for the Blind,  
 \$15; Jam for Britain fund, \$10;  
 Salvation Army, \$15; Milk for  
 Britain fund, \$10.

Mrs. J. Munro gave a report  
 on the dance which was held in  
 Belhaven recently. The proceeds  
 were \$110.

Mrs. C. Tomlinson had some  
 of her famous quilt patterns and  
 explained to those present how  
 to assemble them. She promised  
 to bring some of her quilts in  
 the near future. Mrs. Buckley  
 and Miss Earle gave some inter-  
 esting current events, the most  
 important one being the great  
 Victory over Germany.

Everyone took part in an ad-  
 vertising contest conducted by  
 Mrs. J. Chapelle. The winner  
 was Mrs. S. Johnston.

The June meeting will be held

**HITLER IN EFFIGY TOURS QUEENSVILLE**  
Queensville community last week participated in the grand celebration of V-E Day. Under the guidance of Arthur Alexander, an imitation of Hitler was reproduced by B. Boyd, B. Aylward and T. Doane. This dummy was placed on a small trailer. "Hitler" was then mounted on "Art's" truck, which was elaborately adorned with large and small flags, red, white and blue streamers.  
Very early on the holiday Tuesday, "Hitler" led the long procession of cars to Newmarket. These cars carried the children of the public schools of the community. The main celebration took place in the village at night. The dummy led this time a parade of clowns, children, young men and women, parents and citizens. Cars followed the pedestrians and the parade marched from the school to Cole's garage, returning again to the school yard. Here the gaily decorated highest point with the burning of "Hitler". J. English paid \$5 for the match which started the fire.

**Fags Warmly Received Town Veterans Told**  
"Another carton of cigarettes reached me not so long ago from your very worth while organization," writes Section Officer E. B. Hewson, R.C.A.F. (W.D.) to the Newmarket Veterans' Association Comforts fund. "You can be certain that your cigarettes always receive a very warm welcome."  
"One of the most interesting parts of this life is the way one keeps meeting people from home. Len Wrightman was here not long ago, also Jack Goheen, so we compared notes to get the most recent news of people we know. Sarah Jones is quite near here too, though connections make it difficult to meet as often as we would like. I also saw my brother, Ted, while on leave a while back."  
Sgt. J. P. Arlitt writes, "I received the gum you chaps so kindly sent to me and I thank you for it very much. If I don't use it all myself, there are certainly lots of children over here who would appreciate it."  
"We just arrived back from a trip through northern Scotland. We were up there for two weeks and played every night except one. I hope things are going along smoothly in Newmarket. It seems like a long time since I've been home and I suppose it will be quite a while before I am back."  
"I had a very nice flip in a Mosquito while up north. There were six planes in formation over the North Sea. In a dive to within 200 ft. of the water, we travelled about 360 m.p.h., which was fast enough for me."  
Eric M. Carter writes from Germany in a letter of thanks to the Newmarket Veterans that his cigarettes arrived just as he was going on leave. "While in London I was fortunate enough to see a couple of Newmarketarians, one of whom was Wren Barbara Davis."  
"Just a note to let you know

the cigarettes you sent me were received and greatly appreciated," writes PO W. J. Revill from Iceland. I wish I could thank the other members of the Veterans' Association for the great job they are doing.  
Letters and cards of thanks were also received from Spr. E. S. Rank, Lieut. D. A. Elines, LAC W. S. Jones and Flt. Sgt. W. K. Morton.

Mayor Dr. L. W. Dales suggested at the Newmarket town council meeting on Monday evening that it would be a nice gesture if a greeting were sent to Newmarket, England, on the occasion on V-E Day. N. L. Mathews, town solicitor, was instructed by council to draft the letter and it will be approved by the mayor and town clerk.  
It was also suggested by Mayor Dales that a letter be sent Aubrey Davis, chairman, and H. L. Trapp, organizer, of the Eighth Victory Loan, in recognition of their efforts. The Newmarket quota was oversubscribed.

"Commendation should be given to the soldiers and civilians for their behavior on V-E day," said Councillor J. L. Spillette.
